ITC-HS codes are divided into two schedules.

1) Schedule I

2) Schedule II

ITC(HS) code Schedule I describe the rules and guidelines related to import policies. Schedule I of the ITC-HS code is divided into 21 sections and each section is further divided into chapters. The total number of chapters in the schedule I is 98. The chapters are further divided into sub-heading under which different HS codes are mentioned

Explanation about Classes of Import Trade Control – in ITC(HS) Classification- three policy status described .

A. Prohibited Goods The prohibited items are not permitted to be imported. An export licence will not be given in the normal course for goods in the prohibited category, except where the import is for Scientific & research purpose or zoo exchange between government to government owned zoo or bonafide personal use house hold effects for which supportive documents are presented as prescribed under the law.

B. Restricted Goods The restricted items can be permitted for import under licence. The procedures / conditionalities wherever specified against the restricted items may be required to be complied with, in addition to the general requirement of licence in all cases of restricted items. For example if live animal is restricted than permission from Chief Wild Life Warden of concerned state has to be obtained and licence from DGFT needs to be obtained on the basis of recommendation from Wild Life division, Ministry of Environment, Forests & Climate Change and also if it is in CITES than permit from country of origin required to be produced.

C. Free Goods listed as “Free” in the import Licensing Schedule may also be imported without an import licence as such but they are subject to conditions laid out against the respective entry. The fulfillment of these conditions can be checked by authorized officers in the course of import. The free importability is however subject to any other law for the time being in force.

SCHEDULE- 2

General Notes to Export Policy – Goods under Restrictions

2. Free Exportability

All goods other than the entries in the export licensing schedule along with its appendices are freely exportable. The free exportability is however subject to any other law for the time being in force. Goods not listed in the Schedule are deemed to be freely exportable without conditions under the Foreign Trade (Development and Regulations) Act, 1992 and the rules, notifications and other public notices and circulars issued there under from time to time. The export licensing policy in the schedule and its appendices does not preclude control by way of a Public Notice Notification under the Foreign Trade (Development and Regulations) Act, 1992.

Goods listed as “Free” in the Export Licensing Schedule may also be exported without an export licence as such but they are subject to conditions laid out against the respective entry. The fulfillment of these conditions can be checked by authorized officers in the course of export.

2. Code does not limit the item description

The export policy of a specific item will be determined mainly by the description and nature of restriction in the schedule. A. Prohibited Goods

The prohibited items are not permitted to be exported. An export licence will not be given in the normal course for goods in the prohibited category. No export of rough diamond shall be permitted unless accompanied by Kimberley Process (KP) Certificate as specified by Gem & Jewellery EPC (GJEPC).

Schedule 2 - Export Policy

Notes

1. The schedule below has six columns. The column name and the description are:

Column No.	Column Name	Description
1.	Entry No.	Gives the order of the main entry in the schedule. The column is designed for easy reference and gives the identity of the raw covering the set consisting of <u>Tariff Item Code, Unit Item description export policy and Nature of restriction</u>
2.	Tariff Item (HS) Code	This is an eight digit code followed in the import policy in the earlier part of the book, customs and the DGCIS code. The first two digits give the chapter number, the heading number. The last two digits signify the subheading. The six digit code and product description corresponds exactly with the six digit WCO (World Customs Organisation). The last digits are developed in India under the <u>common classification system for tariff item.</u>

3.	Unit	The second column gives the unit of measurement or weight in the tariff item, which is to be used in shipping bill and other documents. In most cases, the unit is given as “u” denoting number of pieces.	
4.	Item Description	The item description against each code gives the specific description of goods, which are subject to export control. This description does not generally correspond with the standard description against the code. In most cases, the description will cover only a part of standard description.	
5.	Export Policy	This column is for the general policy regime applicable on the item. Generally, the Export Policy is one of the following.	
		Prohibited	Not permitted for Export Licence will not be given in the normal course
		Restricted STE	Export is permitted under a licence granted by the DGFT Export allowed only through specified State Trading Enterprises (STEs) subject to specific conditions laid out in the FTP and also Para 2.11 of the Import and Export Policy.
6.	Nature of Restriction	This column specifies the special conditions, which must be met for the export of goods in the item description column. The column may also give the nature of restriction under the broad category in the Export Policy column.
