WCCB in News

"Killing animals for sport, for pleasure, for adventure, and for hides and furs is a phenomenon which is at once disgusting & distressing. There is no justification in indulging in such acts of brutality."

—Dalai Lama

From Additional Director's Desk

New Delhi: This quarter was a big success for WCCB as we were able to seize huge quantity of wildlife contrabands and arrest several wildlife traffickers across country with the help of Enforcement Agencies of the States and Central Paramilitary Forces in intelligence led enforcement operations. I am sincerely grateful to all the enforcement agencies for engaging with us in conducting such operations. I am also thankful to the dedicated team of WCCB for putting-in untiring effort in all these operations.

WCCB has been at the forefront in India's fight against illegal wildlife trade and is committed to end wildlife crime. We shall always remain committed towards this end, thereby preserving the wildlife heritage of India. I once again thank all the Central and State enforcement agencies for their support in executing wildlife enforcement operations.

The third issue of the WCCB newsletter covers a wider perspective of global wildlife crime scenario besides giving a birds-eye view of all the major activities undertaken by us. We hope you enjoy reading this issue and also look forward to your feedbacks for the coming editions. In the end, I would like to wish all a very Happy Deepawali and pray that the coming festivities bring happiness and joy to all. Best wishes to you and your families.
Jai Hind! — Smt. Tilotama Varma, Additional Director, WCCB

सशस्त्र सीमा बल की वन्य अपराधों की रोकथाम में भूमिका

सशस्त्र सीमा बल वर्ष 2001 से ने चीन में है। भारत-नेपाल व भारत-भूटान की पाल एवं वर्ष 2004 से भूटान सीमा पर सीमा सीमा चीन से सटी होने के कारण भी भूटान सुरक्षा के लिए तैनात है। भौगोलिक दृष्टि से और नेपाल सीमा पर स्थित वन, वन्य अपराधों बल की तैनाती अत्यत कठिन एवं दुर्गम क्षेत्रों में के अवैध शिकार व व्यापार के लिए और अधिक है। नेपाल व भूटान हमारे मित्र राष्ट्र हैं और संवेदनशील हो जाते हैं।

इनके साथ लगने वाली सीमाएँ खुली हैं। इसके कारण से सीमाएँ तस्करों के लिए अनुकूल रही हैं। इन सीमाओं पर नशीले पदार्थों, वन्य जीवों पर उपस्थिति एवं प्रचालन कार्यकलापों ने वन व उत्पादों, अवैध हथियारों एवं जाली नोटों की सम्पदा व वन्य जीवों को रक्षा करवा प्रदान तस्करी होती है। सीमा सुरक्षा की दृष्टि से इन अपराधों को रोकना सशस्त्र सीमा बल के लिए संपदा और जीवों की होने वाली तस्करी एवं उनके अवैध शिकार पर प्रभावी रूप से अंकुश लगाया है। सशस्त्र सीमा बल ने गत वर्षों में वन्य पदार्थों, लकड़ियों एवं प्रतिबंधित वन्य जीवों जैसे टोके, सैंड बोआ सौंप, हाथी दाँत, गैंडे व बंगाल, सिकिम, असम और अरुणाचल प्रदेश से लगती है। इन सीमाओं का एक बड़ा भू-भाग वनाच्छादित है। जहाँ एक ओर पीलीभीत टाइगर रिजर्व, दुधवा नेशनल पार्क, कतरनिया वन्य जीव तस्करों को गिरफ्तार करने में सफलता अर्जित क्षेत्रों की सीमाएँ नेपाल से मिलती हैं, वहीं भूटान सीमा पर गोरुमारा राष्ट्रीय पार्क, मानस राष्ट्रीय पार्क अवस्थित है। ये वन क्षेत्र वन्य जीवों एवं पदार्थों की दृष्टि से धनी माने जाते हैं। अपनी भौगोलिक स्थिति के कारण ये क्षेत्र विभिन्न वन्य क्षेत्रों को सुरक्षित बनाने का भरसक प्रयत्न किया है। पिछले तीन वर्षों में बल ने 243 वन तस्करों को गिरफ्तार करने में सफलता अर्जित की है।

भारत के उत्तर में हिमालय क्षेत्र में स्थित नेपाल एवं भूटान देश की सीमाएँ भारत के उत्तराखण्ड, उत्तर-प्रदेश, बिहार, पश्चिम हिरण के सींग, शेर, चीता, बाघ एवं हिरण की बंगाल, सिकिम, असम और अरुणाचल प्रदेश से लगती हैं। इन सीमाओं का एक बड़ा भू-भाग वनाच्छादित है। जहाँ एक ओर पीलीभीत टाइगर रिजर्व, दुधवा नेशनल पार्क, कतरनिया वन्य जीव अभ्यारण्य, वाल्मीकि टाइगर रिजर्व जैसे वन्य क्षेत्रों की सीमाएँ नेपाल से मिलती हैं, वहीं भूटान सीमा पर गोरुमारा राष्ट्रीय पार्क, मानस राष्ट्रीय पार्क अवस्थित है। ये वन क्षेत्र वन्य जीवों एवं पदार्थों की दृष्टि से धनी माने जाते हैं। अपनी भौगोलिक स्थिति के कारण ये क्षेत्र विभिन्न अपराधों एवं वन्य जीवों/पदार्थों के अवैध व्यापार के लिए उपयुक्त माने जाते हैं।

अपने दायित्व के निर्वहन के लिए बल ने दोनों सीमाओं पर सीमा चौकियां अलग-अलग भू-भागों में जैसे-पहाड़ी, वन क्षेत्र, तराई क्षेत्र, बाढ़ सम्भावित क्षेत्र, वामपंथी उग्रवादी भौगोलिक अवस्थिति के लिए उपयुक्त में स्थापित की हैं।

सशस्त्र सीमा बल सीमा की सुरक्षा के साथ-साथ राष्ट्रीय सम्पदा से परिपूर्ण इन वन्य है। यारसा गंबू को हिमालयन वियाग्रा के रूप में क्षेत्रों की रक्षा का दायित्व भी बेहतर ढंग से भी जाना जाता है। एस.एस.बी. ने अपने तैनाती निभाता है। सीमाओं के इस बड़े भू-भाग पर के बाद से ही इसके तस्करी पर प्रभावी तौर से फैले वन्य क्षेत्रों में तैनात बलकर्मियों को अपराधि अंकुश लगाया है जिसके कारण इसकी तस्करी 'कीड़ा जड़ी' के नाम से भी जाना जाता है।

रोकने के लिए सदैव तत्पर रहना होता है।

पिछले कुछ वर्षों में अन्तर्राष्ट्रीय स्तर पर वन्य जीवों व पदार्थों की खरीद फरोख्त ने पूरे विश्व में इनकी तस्करी को बढ़ावा दिया है। भारत में वन्य जीवों व पदार्थों का अवैध व्यापार मुख्यतया अन्तर्राष्ट्रीय मांग को पूरा करने के लिए किया जाता है। हमारे देश में भी इन पदार्थों की सीधी मांग रही है।

भारत-नेपाल व भारत-भूटान सीमा पर वन्य तस्करों से जब्त किये गये वन्य जीवों एवं पदार्थों के आधार पर यह स्पष्ट है कि इनका अवैध व्यापार, मावजपब जानवरों को पालने, खाने, पारम्परिक दवाईयां बनाने, कपड़े बनाने, आमूषण बनाने इत्यादि में इस्तेमाल किया जाता जो विश्व की सबसे बड़ी पशु बलि प्रथा मानी है। इन पदार्थों की मुख्य मांग पश्चिमी देशों व जाती है।

सशस्त्र सीमा बल 2001 से ने चीन में है। भारत-नेपाल व भारत-भूटान की सुरक्षा के लिए तैनाती अत्यत कठिन एवं दुर्गम क्षेत्रों में के अवैध शिकार व व्यापार के लिए और अधिक है। नेपाल व भूटान हमारे मित्र राष्ट्र हैं और संवेदनशील हो जाते हैं।

बल की नेपाल और भूटान की सीमाओं पर उपस्थिति एवं प्रचालन कार्यकलापों ने वन व उत्पादों, अवैध हथियारों एवं जाली नोटों की सम्पदा व वन्य जीवों को रक्षा करवा प्रदान तस्करी होती है। सीमा सुरक्षा की दृष्टि से इन किया है। बल के सतर्क जवानों ने इन क्षेत्रों से अपराधों को रोकना सशस्त्र सीमा बल के लिए संपदा और जीवों की होने वाली तस्करी एवं उनके अवैध शिकार पर प्रभावी रूप से अंकुश लगाया है। सशस्त्र सीमा बल ने गत वर्षों में संपदा और जीवों की होने वाली तस्करी एवं उनके अवैध शिकार पर प्रभावी रूप से अंकुश लगाया है।

श्री कुमार राजेश चंद्रा (आईपीएस)
महानिदेशक,
सशस्त्र सीमा बल

ऐसी मान्यता है कि 2 दिन के इस

मेले में लगभग 5 लाख निरीह पशुओं की बलि तादाद में भारत की ओर से जानवरों की तस्करी होती थी। वर्ष 2015 में सशस्त्र सीमा भारत-नेपाल सीमा पर होती थी, को भी रोकने तस्करी होती थी। बल बल ने इसके खिलाफ मुहीम छेड़ने का बीड़ा उठाते हुए सीमाओं पर तैनात सभी ईकाइयों को सीमा से सटे गाँवों में सक्रियता और चौकसी बढ़ाने के निर्देश दिए। सुप्रीम कोर्ट के आदेश के बाद सशस्त्र सीमा बल को इस क्षेत्र में बड़ी कामयाबी हासिल हुई। पशुओं की होने वाली तस्करी में कमी आने से पशुबलि प्रथा को रोकने में सशस्त्र सीमा बल की महत्वपूर्ण भूमिका रही है।

जिसकी अंतर्राष्ट्रीय बाजार में कीमत लगभग 20

उत्तराखण्ड के उत्तरी हिमालय क्षेत्र में लगभग 12 हजार फुट की ऊँचाई पर पायी जाने वा. ली एक दुर्लभ जड़ी बूटी है— यारसा गंबू इसे 'कीड़ा जड़ी' के नाम से भी जाना जाता है, है।

TONS OF ILLEGAL PANGOLIN SCALES SEIZED IN CHINA ALMOST 2 YEARS AFTER WUHAN PANDEMIC BEGAN

Sept, 2021: Police in the southern Guangdong province busted a wildlife-smuggling ring sitting on eight tons of pangolin scales worth about \$62 million, among other illegal animal products, Chinese state media reported Wednesday. The wildlife trade looms large in most theories of the Wuhan coronavirus outbreak in 2019 that went on to ravage the entire planet. China's Global Times estimated the smugglers must have killed 16,000 pangolins to obtain the scales in their possession when the police moved in.....

12-YEAR-OLD MUMBAI-BASED ENVIRONMENTAL ACTIVIST NAMED 2021 INTERNATIONAL YOUNG ECO-HERO

A 12-year-old environmental activist Young Eco-Hero, an award that from Mumbai has been named as a 2021 International Young Eco-Hero in recognition of his efforts to solve tough environmental problems. Ayaan

Shankta won third place in the 8-14 age category for his project "My mission is for the lake to regain its past glory as a clean and vibrant body of water," said Ayaan who lives near a lake that used to be a source of drinking water for Mumbai, but has become a dumping ground for garbage and sewage. His project aims to raise awareness about pollution, clean up the lake, and protect its ecosystem.

He is one of the 25 young environmental activists from across the globe honoured by the Action For Nature (AFN) as a 2021 International

In addition to working with NGOs to raise awareness and organize clean-ups, Ayaan authored an action report on lake conditions and is currently working on a documentary about Powai Lake.

"Not only will this help in bringing ecological balance in the thickly populated city of Mumbai, but it will also help to conserve endangered species," he said.

Indian officials burn rhino horns to stop illegal trade

Sept, 2021 — Indian officials burned about 2,500 old rhino horns on Wednesday to spread awareness of the need to protect the rare animal on World Rhino Day. Dozens of Hindu priests performed rituals and chanted prayers as the top Assam state elected official, Himanta Biswa Sarma, lit the fire on a large platform in a sports stadium near the famed Kaziranga National Park. The horns, which had been stored for years, were from rhinos that died of natural causes at Kaziranga and other smaller habitats across Assam state and those confiscated from poachers.

Kaziranga is home to nearly 2,500 one-horned rhinos and is the world's largest habitat for the rare animal. Armed forest guards protect the rhinos, but poachers still manage to kill some of them. Rhino horns are sold by poachers in South Asia, China, Vietnam and some other countries because of a belief that they contain an aphrodisiac and medicinal properties. Sale of the horns is illegal in India. "Trading in rhino horns must stop and the claim of these horns having medicinal properties is false," Sarma said. Sarma decided to burn the horns to create more awareness about the need to protect one-horned rhinos and end poaching, said M.K. Yadava, Assam's chief wildlife warden. The park is 250 kilometers (155 miles) east of Gauhati, the Assam state capital.

Joint operation with Nigeria Customs Service leads to three arrests, seizure of 7.1 tonnes of pangolin scales and 870 kg of ivory

August 2021: Acting on intelligence provided by the Wildlife Justice Commission, Nigeria Customs Service officers searched a residential address in Lagos on Wednesday 28 July, arresting three suspects and seizing 196 sacks containing 7,137 kg of pangolin scales, 4.6 kg of pangolin claws and 870.44 kg of ivory. All wildlife products were destined for export. This is the ninth largest seizure of pangolin scales since 2019. The arrested individuals are suspected of involvement in a well-known transnational criminal network operating in West Africa, linked to approximately 50% of all major pangolin scale seizures over the past three years.....

Truck stopped with almost 1000 smuggled reptiles aboard

Aug, 2021: The scale of wildlife trafficking in Cambodia was graphically illustrated again today when a Virak Buntham Company truck was stopped in Siem Reap province with 984 lizards inside. The incident happened yesterday along Street 67 at Balang commune, Prasat Bakong district, Siem Reap province. Acting on information received, Forestry Administration officials stopped the truck and found the unfortunate reptiles packed into ice containers. It appears that the reptiles have originated in Mondulkiri province and then were being transported via Siem Reap to Sihanoukville. Reptiles are used extensively in Chinese Traditional Medicine and there is speculation that these lizards were bound for the Chinese market, where they are used as a component for medicines to treat asthma, cancer, diabetes and erectile dysfunction, among other conditions.

160kg rhino horn seized at OR Tambo airport

July, 2021: Customs officers seized 32 pieces of rhino horn, weighing included:

160kg, at a cargo transit shed at the OR Tambo International Airport on July 17.

The officers were conducting manifest profiling with the Detector

Dog Unit at the airport when one of the sniffer dogs identified a horn weighing 72.4kg concealed in suspicious shipment destined for a geyser bound for Malaysia.

• February 2021: 18 pieces of rhino horn, weighing 63kg declared as HP Cartridges Developers bound for Malaysia.

• December 2020: 17 pieces of rhino horn weighing 72.4kg concealed in suspicious shipment destined for a geyser bound for Malaysia.

• September 2020: six pieces, weighing 4.9kg declared as coffee beans bound for Malaysia.

• July 2020: 41 pieces, weighing 137kg declared as fine arts bound for Malaysia via Doha.

The shipment was declared as "live plants" and consisted of eight pieces. During physical inspection, six boxes were found containing traditional material concealing 32 pieces of rhino horn protected with bubble wrap. Hawks was alerted about the detection. A criminal case was registered with the SAPS for further investigation.

MP court sentences 13 international poachers to 7 years' imprisonment

July, 2021: The chief judicial magistrate of a Sagar court convicted 13 international poachers and sentenced them to seven years of rigorous imprisonment for smuggling endangered turtles and pangolins from Madhya Pradesh to different parts of the world, said an advocate.

In the past 10 years, the gang smuggled at least 100,000 red-crowned roofed turtles and pangolins--both are listed as critically endangered on the IUCN list of threatened species-- to Sri Lanka, Malaysia, Thailand, Myanmar and a few other countries, said Sudha Bhadaria, an advocate.

The court imposed a fine of ₹5 lakh on the kingpin of the gang, a resident of Chennai, Manivannan Murugesan, who is also wanted in Thailand, under Section 51(1)A of Wildlife Protection Act 1972.

The court also imposed a fine of ₹50,000 on the accused Ajay Singh, Ram Singh and Mohammad Iqrar from UP, Thamim Ansari from Chennai, Mohammad Irfan, Tulsidas and Tapas Basak from Kolkata, and a fine of ₹20,000 on Azad Singh, Sampatiya Batham, Vijay Gond, Kamal Batham and Kailashi from MP.

Bhadaria said, "Mohammad Irfan from Kolkata used to work as an agent for Murugesan to supply wildlife animals to Malaysia, Singapore and Thailand via Myanmar and Bangladesh. Ajay Singh from Agra used to hand over turtles to Thamim Ansari of Chennai to smuggle them to Sri Lanka. The other accused were supplying the turtles and pangolins from the forests and rivers,"

"The accused were lodged in Sagar jail and applied for bail in the high court and Supreme Court but they were

denied. The hearing was being monitored by the apex court since January 2020. During the trial in the case, 27 witnesses were examined by the prosecution before the court.

In the case, final arguments were presented on behalf of the prosecution for 13 days," said Saurabh Dhimha, additional district prosecution officer.

Notably, Murugesan is also wanted in Thailand in connection to a case of smuggling of 890 endangered turtles in 2012. He was arrested by Thailand police and was released on bail. He then went on the run until his arrest in MP.

A lookout notice was issued against him and a metropolitan court also issued a warrant against him.

Eight men convicted in French court for trafficking rhino horn and ivory

Sept, 2021: A French court came to the judgment she said has convicted eight men was “educational and including members of an dissuasive ... for all those Irish crime gang for who engage in wildlife trafficking rhino horn and trafficking and speculate on ivory between Europe and species threatened with extinction”. “Before

trafficking, there is poaching

which causes social and environmental devastation,” she said after Wednesday’s verdict.

Four men – three Irish and one English – said to be members of the Rathkeale Rovers gang were given prison terms, though two were spared jail as the sentences were suspended.

The court also imposed a total of €316,000 (£270,000) in fines. Three of the men were not present at the special court in Rennes in west France and are the subject of international arrest warrants.

Charlotte Nithart, president of the Robin des Bois (Robin Hood) environmental group, welcomed

of Chinese and Vietnamese origin. Police said the Irish and English suspects were members of the Rathkeale Rovers, a criminal clan named after a town outside Limerick in southern Ireland.

Rooted in the Travelling community, gang members have been linked to a bewildering range of scams across Europe, the Americas, Africa and Australia.

Detectives discovered the smugglers had two workshops in France to transform ivory and rhino horn into powder or flakes and other objects that were then exported to Vietnam and China to be used in traditional medicine.

Operation WILDNET-IV by WCCB

Sept, 2021: To encounter the menace of Cyber Wildlife Trafficking, WCCB launched “Operation WILDNET-IV” under its ‘WILDNET’ Operation Series. The operation started from 1st of July 2021 and continued till 30th Sept, 2021 throughout the country. During the operation period, WCCB and other Wildlife Enforcement Agencies worked towards detecting cases of cyber wildlife trafficking through cyber patrolling and taking appropriate action against the cyber wildlife traffickers in a focused manner.

The operation code named as “Operation WILDNET” was first envisaged by WCCB in May 2017, taking into consideration increasing threat of online wildlife trade across the country. The operation was aimed at dragging the attention of the enforcement agencies within the country to work towards countering the menace of the ever increasing illegal wildlife trade over digital landscape.

WCCB has also convened three coordination meetings with digital platforms such as Quikr, Google, Snapdeal, Indiamart, Amazon, and OLX to discuss issues related to cyber wildlife trafficking and reach a consensus on sharing of information that would help in curbing this menace.

Operation ‘WILDNET-I’ was undertaken by WCCB from 1st May to 30th June 2017 throughout the country. Total 48 cases of online sale of wildlife contrabands were detected. 08 persons were arrested and 05 cases were registered during the operation period. ‘WILDNET-II’ was conducted from 01st to 30th November, 2019 and resulted in the arrest of a dozen offenders and the initiation of 09 criminal cases. 25 cases of online sale were detected during this period. ‘WILDNET-III’ was initiated from 01 July to 30 Sep 2020, in which 27 species were seized and 26 cases were registered leading to arrest of 46 persons in total.

An array of wildlife species and contrabands were seized in all these operations, including Falcons, Pangolins, Rhino Horn, Coral, Antlers, Civet Cats, Parakeets, Elephant Teeth, Monitor Lizard, Sea Fan, Musk Pod, Starlet Corals, Trochus, Turtle, Lion Teeth, Shark, Elephant-hair bracelet, Red Sand Boa, Indian Soft-shelled Turtle, Indian Tent Turtle, Meat of Deer, Meat of Wild Boar, Parakeet, Muniya, Elephant ivory idol, and Snake, etc..

‘Operation WILDNET’ has also brought several accolades to WCCB. In Feb, 2021, WCCB received the prestigious ‘Asia Environmental Enforcement Award 2020’ from United Nations Environment Program (UNEP) in ‘Innovation Category’ for running operation ‘WILDNET-II’. This was the second time it bagged this award as the agency has earlier received Asia Environmental Enforcement Award in 2018 also in the same category.

‘Operation WILDNET’ has been a big success so far and WCCB is committed to carry it further to eradicate ever-growing illegal wildlife trade on the digital platform. Data of recently held operation ‘WILDNET-IV’ is being compiled and would be made public soon.

“WILDNET-I”

1st May 2017 – 30th Jun 2017

Total Cases = 5
Accused Arrested = 8
Types of Species Seized = 6

“WILDNET-II”

1st Nov 2019 – 30th Nov 2019

Total Cases = 9
Accused Arrested = 12
Type of Species Seized = 7

“WILDNET-III”

1st July 2020 – 30th Sep 2020

Total Cases = 26
Accused Arrested = 46
Type of Species Seized = 27

Field Sensitization/Training Programs

WCCB on a regular basis conducts sensitization/ training programmes for the personnel of enforcement agencies dealing in wildlife crime cases including the personnel of Police, Paramilitary Forces, Railway, Customs, Airports, Sea Ports, Enforcement Directorate, Postal, Forest Departments and other law enforcing agencies.

Several such sensitization and training programmes were undertaken during this quarter. Below are some glimpses-

Turtles

(Scientific Name: Testudines)

Key Facts

Turtles are reptiles of the order Testudines, characterized by a special bony or cartilaginous shell developed from their ribs and acting as a shield.

Tortoise are distinguished from other turtles by being land-dwelling, while many (though not all) other turtle species are partly aquatic. It can reside inside freshwater or saltwater.

Turtles are cold-blooded species & have higher range of body temperature and move between environments to make themselves warmer or cooler.

They have very slow metabolism and can survive without food and water for a long time. Turtles live all over the world in almost every type of climate.

"Turtle," "tortoise" and "terrapin" are often used interchangeably as synonyms, but there are distinct differences between the types of chelonians.

The shell of a turtle is unique among vertebrates and serves to protect the animal and provide shelter from the elements. It is primarily made of bone.

There are five Marine Turtle species in Indian waters i.e. Olive Ridley, Green turtle, Loggerhead, Hawksbill, Leatherback, and several fresh water turtle species including Indian Flapshell Turtle, Indian Roofed Turtle, Indian Softshell Turtle, Red Crowned Roofed Turtle, Indian Tent Turtle, Black Pond Turtle, besides tortoise species of Indian Star Tortoise

Significance:

They are among the oldest and most primitive groups of reptiles, having evolved millions of years ago and play an important role in ocean ecosystems by maintaining healthy seagrass beds and coral reefs, providing key habitat for other marine life. It also helps to balance marine food webs and facilitate nutrient cycling from water to land. Thus, conservation of turtles will help to conserve biodiversity and to maintain natural balance.

Turtle Conservation in India

According to the International Union for Conservation of Nature (IUCN) most of the species of turtles & tortoises are vulnerable, endangered or critically endangered.

The Olive Ridley, Leatherback and Loggerhead are listed as 'Vulnerable' on the IUCN Red List of Threatened Species, while the Hawksbill turtle is listed as 'Critically Endangered' and Green Turtle as 'Endangered'.

Turtles are protected under Indian Wild Life (Protection) Act, 1972.

World Turtle Day is observed on 23 May to increase attention on conservation of Turtles and Tortoises.

Threat: Out of 300 species of turtles in the entire world, out of which 129 species are endangered. This is because of constant human interruptions in their natural habitat. They are also poached by humans and are pushed into illegal pet trade. The most common reason why they are endangered is because they are slaughtered for their meat, skin, shells and other properties. Rare species are seen as status symbols and collectors' items and are sold at high value.
